

Saturday 4 July 2026
9am to 3pm

Sterilising Technology Education Day

This education day is being bought to you by the **New Zealand Sterile Science Association Inc. and Gisborne Hospital CSSD.**

The programme has something for everyone undertaking sterilising activities

Getinge, Lon Hua - Washer/steriliser loading and troubleshooting, ultrasonic cleaning

SMS, Steve Gorrie - GKE: process challenge devices (PCD) and monitoring, including why they are used, how to interpret results, and troubleshooting

Storz, Keegan Rollo - Care and maintenance of telescopes and light leads.

Hallmark, Michelle Pravin & Junior Suckling - testing machine for rigid container integrity

Multigate: packaging and sterile barrier application, including the rationale behind wrapping methods and what we aim to achieve

Great opportunity for networking and to get continuing professional development hours

☺ Morning tea and lunch provided ☺
